

Exploring Danish Business Culture

Workshop – April 24th, 5-9pm

Purpose

To enable participants to be more agile in their encounter with Danish business culture by identifying points of similarity and difference between their own experience and expectations and what they encounter in the world of work in Denmark.

Outcome of workshop; Participants will

- Develop a deeper understanding of some of the key features of Danish business culture.
- Broaden the repertoire of responses available to them in their encounter with Danish business culture.
- Be aware of frameworks for thinking about and describing culture and cultural practices.

- Enhance their effectiveness in working with Danish business culture.
- Be able to create a strategy for engaging with the Danish labor market if they are currently outside it.
- Be enabled to thrive and create value for both themselves and the organization for which they work.
